Co-founder of Relentless Innovator, LLC and author of the groundbreaking *FEARLESS: Real Estate Investing In The Era Of Climate Change*

## Book Reviews

“This must be a unique book in all the annals of Real Estate investing books, and I am most grateful to have been lead to it. It is an eye-opener! The author is a straight-talking straight-shooter. There are no pages of filler like lots of books. She gets right to the point, and her points on climate change and its potentially long-term effects are incredibly well-researched.”

“As a top selling real estate agent, I like to read new information regarding real estate as soon as it hits the market so I can be on the cutting edge for the clients I serve. I feel it is my obligation to be a resource to everyone who relies on me for direction and decisions. This book was exactly that. Never have I seen a book or article that digs deep into the impact climate change is having and will continue to have on the value of real estate.”

“Anyone who wants to pride themselves in being the expert in real estate, whether investor, developer, agent or broker, this book gives you revolutionary insight to keep you ahead of your competition.”

“I found it concise and easy to understand”

“Sheldon classifies climate change as an “equal opportunity calamity”. Climate change is here whether we like it or not, and unless real estate investors and professionals take this into consideration, they stand the chance to suffer severe financial loss.”
